Step 2 - Generate a licence for your computer

To generate your license, you have to provide your computer code identifier (TARGET-ID)

A - Download the "TARGET-ID GEnerator" Program

Download TARGET-ID GEnerator

Unzip the files in the same temporary folder, then open Tiger.exe in admin mode (right click, run as administrator)

Generate your TARGET-ID (composed of letters and figures, format is XXX-XXXXXXXXXXXXXXXX)

Having trouble finding your TARGET-ID, you can watch this tutorial

B - Once your TARGET-ID obtained, please paste it on the following box to generate a license key for your computer.

After clicking on "activate my computer" you will instantly receive an email. If you need a license transfer (if you change your computer or after an hardware failure) please update your Target-ID linked to your new machine, paste it in the dedicated box and click on activate to receive your new license. 2 changes are allowed.
