

The background image is a digital architectural rendering of a modern residential building complex. The building features a multi-story structure with a mix of light-colored facades and dark window frames. It has a stepped, terraced design with balconies and large glass windows. The building is situated along a riverbank, with a stone wall separating the water from the building. In the foreground, there is a paved walkway with a railing, and a person is seen walking. The sky is overcast, and the overall scene is presented with a semi-transparent red overlay.
